- available with roller shutters, external venetian blinds or ZipTex curtains
- excellent heat and sound insulation characteristics
- wind resistance in box/window system
- Made in Germany

AK-FLEX

SIMPLE, TIME-SAVING AND FLEXIBLE

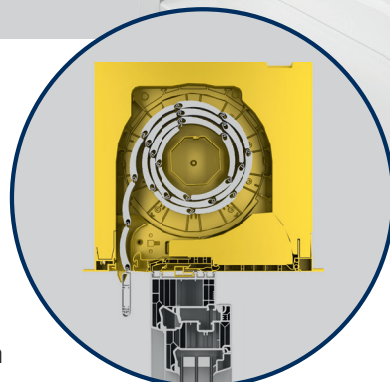

The most important points at a glance

- high stability – element widths of up to 500 cm possible
- 260 box height in three basic sizes: 270, 300 and 365
- with mini and maxi roller shutter curtains, ZipTex textile solar protection as well as venetian blind slats in flat, flanged or Z-shaped design and as light guide slat
- grooved EPS surface and grooved aluminium/PVC mounting frames for better adhesion to the plaster
- simple and secure mounting on the window
- waterproof PVC and aluminium guide rails
- tested static concept with high stability and simple installation

Additional options

- integrated insect protection possible for all shutter and venetian blind boxes
- Glass slip guard protection for roller shutter and external venetian blind boxes can be integrated with a corresponding guide rail
